### DESCRIPTION OF PROFESSIONAL USE

This declaration applies to Recordable Media. According to the Finnish Copyright Act Article 26 a, the Copyright Decree Article 24 and the decree by the Finnish Ministry of Education, the private copying levy is paid when recordable media are imported or manufactured.

We declare that recordable media purchased for the use of our company are not used for private copying, but all acquired recordable media are used for professional copying in our own business operation (Copyright Act Article 26 e). Recordable media are not sold or otherwise distributed.

We agree to inform Teosto's Private Copying Unit immediately if the use of recordable media purchased by our company changes.

The company receives a purchase ID from Teosto after which, by showing the purchase ID, it has the right to buy recordable media for professional use without the private copying levy from retailers who have the appropriate rights.

We agree to give information about the purchases of recordable media (e.g. retailers and purchased amounts) if Teosto's Private Copying Unit so requests.
